DETAILED ACTION

Allowable Subject Matter

Claims 1-8 and 25-36 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a method of manufacturing an integrated circuit having trench isolation regions in a substrate with a first type liner on the first side walls of the trenches associated with first type regions of the substrate and a second type liner on the second side walls of the trenches associated with second type regions, wherein the method comprises forming a mask on the second side walls of the trench followed by forming the first type liner on the first side walls and then removing the mask and then forming a mask on the first side walls followed by forming the second type liner on the second side walls of the trench. Both independent claims 1 and 29 contain such allowable subject matter and are therefore deemed allowable along with their dependent claims 2-8, 25-28 and 30-36, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
